SUMMARY

As an Associate Software Engineer at Novaders LLP, I create and enhance web applications using Angular, a framework that I have mastered over two years. I have good understanding on angular concepts like components, services, and directives.I have also integrated the YFiles for HTML library for visualising data as graph.

PROJECT

Cymonix (Novaders LLP)   **March 2023 - present**

- Worked on important feature of the application using Yfiles for HTML and created a graphical representation for analyzing data
- Used Angular Ts , Yfiles for HTML (Graph visualization toolkit)

Ozust (Novaders LLP)   **December 2021- March 2023**

- Worked on create a responsive front end web application
- Framework used AngularTs
- UI component library used Primeng
- Learnt Angular Ts concepts like life cycle hook, creating components, service, typescript

Personal Project

- Chat application using Angular and socket.io (https://github.com/nvandana1/chat-app)
- Todo App using React (https://github.com/nvandana1/Todo)

SKILLS

- Angular Concepts (like life cycle hooks, creating component and service, directives)
- SCSS / CSS (Grid for responsive UI) and HTML
- Typescript / Javascript
- Using Ui component Library like Primeng , Material UI
- Api integration using HTTP client in angular
- Rxjs (observables)
- Problem Solving

WORK EXPERIENCE   **2+ Years Experience**

Associate Software Engineer   **December 2021- Present**

Novaders LLP, Bengaluru
- Gained knowledge on Angular, Primeng, Typescript, SCSS, RxJS.
- Contributed to projects and played major role in projects like doing RnD and implementing major feature in the projects

EDUCATION

Bachelor of Engineering in Computer Science   **July 2017 - Sep 2021**

Shri Madhwa Vadiraja Institute of Technology
- Worked on Agroxpert chatbot.
- Participated in Hackathons
